Company history/background

Experienced management

The Dutch company in question develops, produces, and assembles electromechanical production lines for third parties throughout Europe and beyond.

Face mask production line

The company sees good opportunities for setting up a face mask production line (medical grade) capable of producing millions of masks annually.

Unique selling points

Sale

The sale is being conducted by a medical trading company that is currently already active in the international sale of medical equipment to hospitals, among others.

Other

Hands-on investor wanted

The company has issued a mandate to seek a hands-on investor with an affinity for manufacturing and preferably also the medical sector. The company is seeking capital in the amount of EUR 300,000.
