### Asking price

€ 1.000.000 - € 2.500.000

### Earnings before taxes

€ 250.000 - € 500.000

## Company history/background

The karting business is located in the north of Spain, on a large piece of land with many exploitation opportunities, to carry out extensions of the business itself or any other industrial activity.

After a thorough analysis, it is estimated that the value of the assets of the karting business (land, facilities, material ...) is 2.5 million euros. It has a bar and its own photovoltaic solar garden, so it does not require an electrical contract.

It has low operating expenses and the average billing in the last year has been 35-40 thousand euros per month. It has a wide portfolio of loyal partners and clients.

It is for sale for retirement.
