Company history/background

Subject: The sale of 100% of the shares of a private limited company. The vehicle fleet is owned by the company itself.

Reason for sale: The entrepreneur is ready for the next phase in his life. There is no succession within the family and/or among staff members. Therefore, it has been decided to offer the business for acquisition.

Company Profile: Over more than 25 years, the company has grown into a specialist in temperature-controlled

transport of primarily vegetables, fruit, and foodstuffs. With its accumulated expertise, it serves a loyal and diverse customer base and fulfills an essential logistical link. The company does not manage its own storage facilities. For all customers served, shipments go directly from the customer to the final destination (limited outside the Netherlands).

Employees: The company has a loyal workforce of approximately 25 FTEs, with an average service record of 10 years. The majority of the staff consists of drivers, a large number of whom have received further internal training. As a result, they possess knowledge of product-specific requirements regarding their transport. The planning department consists of multiple individuals, while the Managing Director focuses on relationship management and operational support.

Other

EBITDA (€)	450,000	350,000	400,000	450,000
