### Company history/background

The company (corporation) was founded years ago and provides support to people with a mild intellectual or motor disability or psychiatric issues. These people are unable to live independently, and this company provides accommodation and guidance with a focus on independence.

The company has extensive experience in providing 24/7 care and day activities. Services are also offered from a home setting. This does not involve treatment, but rather individual guidance with 24-hour availability. The

company holds the appropriate permits and an ISO 9001 quality system.

The business operates with a team of 16 employees; the current owner is also employed by the company. The spacious premises are presentable and functional and are rented. This currently provides living space for 30 clients.

The company's structure is geared towards further growth within the existing premises. Current revenue is approximately €2,000,000 with an EBITDA of €232,000. 100% of the shares are being offered for acquisition.

## Other

The reason for the sale is that the owner wishes to transfer the company, which he has built up over the past few years, to a new owner who will continue to grow it. The current owner is approaching retirement age and wishes to take things a little easier after a careful business transfer.

This company is ideally suited for a strategic buyer seeking to expand their current portfolio. It also offers good future prospects for an MBI candidate who wishes to focus on growth and capitalize on favorable developments in this industry.
