Company history/background

This administration office has been active for more than 15 years and has built up a stable and loyal client base during that period. The business is currently operated from its own office building. The reason for the sale is that the owner wishes to focus on other (business) activities.

The core activities consist of:

- Maintaining records in a fully digitized environment
- Preparation of annual accounts
- Preparing Income Tax and Corporate Tax returns
- Providing tax advice
- Performing payroll administration

The entire client base is available for acquisition.

Unique selling points

Very high profit level: turnover approximately €95,000 excl. VAT with a profit of approximately €80,000 per year.

- Efficient, digitized working method
- Client stop for an extended period, while new applications are still coming in.
- Strong and long-lasting customer relationships
- Suitable for further growth through the reopening of client intake

Other

The business is ideally suited for a buyer with several years of experience within an administration or accounting firm, but is also interesting as an expansion for an existing practice.

The owner is willing to cooperate for an agreed period to ensure a smooth transfer.

Continuation from the current premises is temporarily possible, but relocation is preferred.
