Company history/background

The company is an established name in the 's-Hertogenbosch region and has built a solid reputation within the tile industry over the past years. Thanks to a consistent focus on quality, reliability, and customer orientation, the company has managed to build a broad and loyal client base, consisting of both private and business clients.

Over the years, the company has developed into a trusted partner for renovation and new construction projects in the region, with a stable revenue base and a strong reputation.

Due to health problems of the owners, the company is being offered for acquisition.

The company focuses on the sale of tiles. The assortment includes a wide range of floor and wall tiles in various styles and price ranges.

The sales floor area measures 300 m². A large warehouse of 450 m² is present. This is a rental property.

Unique selling points

The company distinguishes itself through a strong and up-to-date range of tiles that aligns well with customer wishes. Through the combination of a well-organized showroom and personal advice, customers are well assisted in making the right choice.

In addition, good relationships with suppliers ensure reliable delivery and competitive purchasing prices. The focus on quality, service, and a pleasant shopping experience means that customers are happy to return and recommend the company to others.

Other

The business is interesting for both a start-up entrepreneur and an entrepreneur who wants to expand with an additional branch.
