Company history/background

The company is a trading company for garden and park machinery, including mini-loaders, based in the northern half of the Netherlands. In addition to selling machines, the company also provides maintenance and offers machines for rent.

The business activities are conducted under a BV structure. The business premises are leased internally and will be leased to the buyer as part of the transaction. The organization consists of a team of approximately eight

employees, primarily mechanics, along with support staff. The management is mainly active in day-to-day operations, sales, and planning in the workshop.

Unique selling points

The company has a broad and complete product range with associated dealerships. The company has short lines of communication and a customer-oriented culture of keeping promises, combined with seeking solutions to problems that arise with customers.

Other

REASON FOR SALE The current owner is unable and unwilling to give the company the attention it requires, partly due to circumstances. Therefore, he is seeking a suitable party to continue the business and allow it to flourish further. In addition, the seller is willing to transfer operations via a smooth handover within a period to be agreed upon.

FINANCIAL The company has had stable revenue of approximately €2.8 million over the last few years. The EBITDA for 2025 amounted to €215k and the expected EBITDA for 2026 is approximately €200k.

TRANSACTION The proposed transaction concerns the sale of 100% of the shares of the company. Overname in bedrijf holds a full sales mandate. Based on an NDA, further sales information is available to those with serious interest. The price for the shares (cash and debt free) has been set at €900,000. This transaction is strategically interesting for other companies in the industry/chain. It may also be suitable for an entrepreneurial MBI candidate.
