### Company history/background

This garage has been active for several years in the maintenance and repair of various car brands. Over the years, a loyal customer base has been built up thanks to reliable, high-quality service and craftsmanship. The business is fully operational and offers a solid foundation for an entrepreneur who wants to get started immediately and/or expand.

The company specializes in the maintenance, repair, and diagnostics of passenger cars of various makes. The

work includes MOT-related work, parts replacement, fault diagnosis, brake and tire service, and general technical repairs.

## Unique selling points

The company distinguishes itself through personal service, fast repairs, fair prices, and a loyal customer base. It works on cars of various brands, serving a very broad target group. The business is immediately operational and offers opportunities for further growth.

## Other

The ideal buyer is an entrepreneur or automotive mechanic with an affinity for the automotive industry who wishes to acquire an existing and operational garage business. Also suitable for an investor or company looking to expand its operations and benefit from an existing customer base and growth potential.

Features are:

- Successful business with a loyal customer base
- Universal garage for various car brands
- Immediately operational and can be continued without a long start-up period
- Possible expansion of services and further growth
- Suitable for both starting and experienced entrepreneurs
