Located in the Southeast Netherlands is this well-performing supermarket with an artisanal butcher shop and a wide, carefully curated assortment of products.

The strength of this supermarket lies in the combination of consistent quality, a unique and diverse range, competitive pricing, and the ability to respond quickly to trends and luxury products. This has led to a loyal and extensive customer base, originating from a catchment area of no less than 35 to 40 kilometers.

Unique selling points

The company is situated in an excellent visible location, with optimal accessibility, in a modern leased property within a lively shopping centre — a solid foundation for further growth.

Financially, the organization shows strong results: in 2025, a turnover of €4.5 million was realized with an EBITDA of €675,000.

Other

The current owner wishes to focus on new activities and is therefore seeking a driven MBI candidate or strategic partner willing to continue and further expand this successful formula. A careful and warm handover is a matter of course.
