### Company history/background

The business offered for sale focuses on quality improvement and professionalization of vocational education.

The company supports teachers, managers, and education professionals so that students receive the best education. It contributes to improving the quality and professionalization of vocational education through consultancy, project management, customized training, and an integrated approach. Clients include higher professional education (HBO) and secondary vocational education (MBO) institutions, universities, regional

vocational colleges (ROCs), private training providers, and corporate training programs throughout the Netherlands.

## Other

The company is based in Hilversum but is not location-bound. There are 11 employees active within the company, who work either at the clients' locations or from home. The company is managed by a director. The entrepreneurs do not have an active role. Their management fee can be standardized. The entrepreneurs wish to focus on their other business; these are non-competing activities.

The current shareholders are willing to retain a minority stake to facilitate the financing. The involvement of the current shareholders in the form of performing work is open for discussion.
