Company history/background

The company was founded in 1997 and acquired by the current owner in 2006 via a management buy-in. During these 19 years, the company has become a stable factor for a substantial number of loyal and diverse clients in various sectors.

The owner wants to take a different path and focus more on another business and new activities he wishes to develop.

The company processes plastics in numerous sectors. These include the food industry, the chemical industry, construction, the leisure sector, liquid-tight facilities, and swimming pools. In addition, custom work is also offered.

The activities take place in our own workshop or on location at the customer's.

The company is favorably located to serve the Belgian market as well.

Unique selling points

The company is characterized by a strong focus on solutions and delivering quality craftsmanship to a very diverse clientele.

Other

The company is well-suited for a candidate who is already active in the sector and is seeking to expand activities.

In addition, it is also an excellent opportunity for self-employed professionals who want to take over a business to take on the management themselves.
