Company history/background

Professional and fast-growing provider of individual and family home-based counseling in the Northern, Eastern, and Central Netherlands.

A financially sound and fast-growing care organization, specialized in outpatient home-based support for youth, adults, and families.

Unique selling points

The organization employs permanent staff and enjoys an excellent reputation among municipalities and referral agencies. Thanks to an efficient structure and low overhead, margins are healthy, and there is room for structural investment in quality and team development. There are long-term contracts with various municipalities and main contractors in multiple regions. Services cover the Social Support Act (WMO), the Youth Act, the Long-Term Care Act (WLZ), and the Personal Budget (PGB), and it serves a broad, stable client base. Due to proven success in tenders and a continuous focus on quality and innovation, the growth prospects are excellent.
