Company history/background

Delta Estudio Nuevos Ministerios is part of the official distributor network of Delta Cocinas, a Spanish brand with more than 30 years of experience in mid-high range kitchens. The showroom is a fully operational premium space located in one of Madrid's most exclusive areas, and has served as a key reference point for architects, interior designers and end clients.

The sale is due to a strategic restructuring that is consolidating the group's brands. The offer includes a fully operational space with equipment valued at €166,000, a valid operating license and no staff obligations. It also

includes a database of over 400 active contacts and a project portfolio ranging from €50,000 to €200,000.

The main activity is the sale and consultancy of high-end, designer kitchen projects, aimed both at end clients and professional specifiers.

The showroom is fully operational and has no associated staff, allowing for immediate integration into the buyer's existing structure.

The lease agreement for the premises has a minimum commitment of one year. Delta Cocinas will assess and approve the new distributor, maintaining its current commercial conditions and offering the possibility of renegotiation.
