## Company history/background

This construction company, based and active in the Overijssel region, is seeking a suitable acquisition candidate. The company generates a turnover of approximately €4 million and has about 15 to 20 employees.

The activities include new construction, renovation, and maintenance work. The revenue distribution across these segments varies by year. This company has a well-equipped business location with a machine carpentry

workshop.

## Unique selling points

The company primarily has long-term partnerships with professional clients, including government bodies, housing associations, investors, architects, and businesses. In addition, it also carries out projects for private clients.

## Other

The current management wishes to actively support the acquisition by mutual agreement for a specified period.
