This company makes cash transactions secure, fully manageable, and hands-free for its customers and has a very strong position in the Benelux region. Cash management is essential in large retail and retail businesses. The Cash Payments Act underscores this.

The organization provides secure and innovative solutions, including age verification, that contribute to compliance with laws and regulations, save time, eliminate cash discrepancies and optimize cash flow.

Other

The organization has a small, efficient, and enthusiastic team and serves a broad client base of renowned

companies within the industry. The company is known in the market as a high-quality and reliable partner with long-term customer relationships.

The company is located in the south of the Netherlands.

The 2025 turnover amounts to approximately € 2 million with an EBITDA of € 200,000.

The current owner is prepared to remain involved for an agreed period, particularly for the purpose of the commercial transfer and continuity of sales activities.

Unique opportunity for a strategic acquisition or expansion in the cash management sector.
