Company history/background

The firm was founded in 1991 and has experienced stable growth since its inception. They excel in providing a "full-service" for SMEs across all legal forms. Thanks to collaboration with various specialists, the range of services on offer is extensive.

All core activities associated with a good and effective administration office are utilized by the clients. The team consists of 2 full-time employees and 2 part-timers with extensive experience. The part-timers provide a flexible

structure, ensuring there is and remains sufficient room to grow with existing clients as well as, certainly, with new ones.

Unique selling points

Extensive experience, a flexible structure, and a strong focus on quick and efficient communication with clients mean that we mean much more to our clients than just the bookkeeper taking care of the annual accounts and (VAT) returns.

Other

The buyer is a party or person wishing to start up in this industry and who would like to temporarily make use of the extensive experience of the current owner, but who wishes to chart his or her own course. Alternatively, the buyer is a more strategic party seeking to expand activities in the region.
