Company history/background

The practice has been owned by the current owners since 2011. They now wish to transfer the practice to someone else. There is no succession available within the practice itself.

The practice offers 11 treatment specializations, including 6 master's specializations.

Clients can attend physiotherapy fitness on an individual basis or in sports groups. For this purpose, the practice

has two large and one small exercise room available.

Unique selling points

The practice distinguishes itself by:

- Strong local position
- Revenue diversification across multiple specializations and physiofitness
- Stable team, virtually no turnover
- Referrals from general practitioners and medical specialists
- Patient flow from physiotherapy to long-term physiofitness
- Healthy financial situation

Other

Both owners are willing to continue working as therapists after an acquisition.

All matters in consultation with the purchasing party.
