Company history/background

Het Kinderdagverblijf is an independent and distinctive daycare center in South Limburg with a history dating back to 1992. The company explicitly positions itself as a home-like, personal, and small-scale childcare facility with ample outdoor space, nature experiences, and a visible animal concept.

The Daycare Center offers childcare with 56 places in 4 groups for children aged 0 - 4 years. No out-of-school care.

Unique selling points

The positioning is clear: a warm, safe, and home-like childcare facility where every child is seen and where outdoor experiences form an essential part of the daily program. The concept combines professional childcare with peace, routine, nature experiences, and individual attention. There are many outdoor activities, including playing in the outdoor kitchen, mud kitchen, and sandbox.

Exploring the barefoot path and helping in the vegetable garden.

Contact with animals in the private outdoor area.

Other

This company is interesting for strategic buyers looking to realize synergy benefits. The company is also interesting for entrepreneurial MBI candidates with knowledge of this sector.
