Company history/background

This shoe store has been operated by the current owners since January 2011; in 2015, a move to a larger location in the shopping center took place. The store is located in a close-knit neighborhood that feels like a village, featuring, among other things, a weekly market.

The shopping center has a mix of small independent businesses combined with 2 supermarkets (AH & Jumbo) and some chain stores.

The shop is located in a passage with no vacancies.

Retail trade in shoes, leather goods, clothing and (home) accessories

Unique selling points

Loyal customer base extending far beyond the location

Shop for the whole family, focused on fashionable comfort, among other things.

For two years in a row, this store was among the top 50 shoe retailers in the Netherlands.

Other

Interesting acquisition opportunity for experienced salespeople / business leaders from the industry who are ready for entrepreneurship, or for existing entrepreneurs looking to expand with an additional location.
