Asking price

To be agreed

Earnings before taxes

€ 500.000 - € 1.000.000

Company history/background

The majority of assignments are carried out for property owners and property managers, supplemented by work for tenants who wish to optimize commercial space.

The company handles the full spectrum of activities, from daily and planned maintenance to remodeling, renovations, and redesigns.

Revenue is driven by a stable base of ongoing maintenance orders, supplemented by fluctuating project-based work.

Partly due to the focus on other (business) activities, the Managing Director has expressed a desire to further investigate a sale of the company.
