€ 0 - € 100.000

### Company history/background

Established nail studio with over 20 years of history. Historically, in addition to nail treatments, related beauty services were also offered (beauty treatments, pedicure treatments, and training). After the COVID-19 period, operations were deliberately scaled down.

The current focus is on professional nail treatments. Historically, the offerings also included beauty treatments, pedicure treatments, and training courses.

## Unique selling points

A loyal, returning customer base and a clear quality positioning.

## Other

The business is particularly suitable for an experienced nail stylist, beauty entrepreneur, or existing salon looking to expand with an existing client base and an operational location.
