### Company history/background

#### Specialized in high-quality seating furniture

This renowned company offers a wide range of high-quality seating furniture, particularly sofas and armchairs with matching tables.

With a strong focus on sustainability and European craftsmanship, the company has built a solid reputation

within the furniture industry.

The products are designed for long-term and intensive use and are primarily produced in Europe.

Sales take place at a central location, based on a unique formula.

The company has an experienced team of professionals who collectively strive to deliver high-quality furniture.

The organization is characterized by a customer-oriented approach and a passion for furniture design.

Production takes place within Europe, with the design being developed in mutual coordination.

Because production is directly coordinated, the company offers an excellent price-quality ratio as a wholesaler.

## Unique selling points
