### Company history/background

This concerns a popular and successful cafeteria located on Linnaeusweg in Boskoop, right next to the Hoogvliet supermarket. Thanks to its excellent location near the shopping center, the business enjoys a constant stream of regular and new customers. Guests can come here for high-quality fries, burgers, snacks, milkshakes, and full meals. The company is known locally for its fast service, extensive range, and regularly changing promotions and specials.

In addition to takeaway and restaurant revenue, the company has a strong delivery division. Deliveries are made throughout the wider area using both bicycles and a delivery car. Approximately 60% of total revenue is derived from delivery activities, with delivery revenue being higher during the winter period than in the summer. The cafeteria is easily accessible, and ample parking is available in the immediate vicinity.

The commercial space has an area of approximately 100 m<sup>2</sup> on the ground floor and is efficiently laid out. In addition, the company possesses professional inventory and well-maintained installations.

## Unique selling points

The cafeteria is affiliated with one of the largest franchise systems in this sector in the Netherlands. The current owners have been operating the business with great pleasure and success for eight years now. During this period, the company has achieved several successes, including the title of Best Foodmaster of the Year 2023.

After many wonderful years, the owners have decided to seek a successor due to other career plans. This presents an excellent opportunity for an entrepreneur who wishes to continue a successful and established cafeteria.
